CLAIMS 1-27 ARE PRESENTED FOR EXAMINATION

Applicant's arguments filed April 2, 2001 have been fully considered but they are not persuasive.

Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.

The applicant argues that the inventive feature resides in the evaporation step. However, claims 11-27 recites in step b (a) the addition of "an oil containing a stabilizer under conditions suitable to evaporate at least a portion of the first organic solvent ". However, there is no step in the claims, either independent or dependent, when the oil is evaporated.

It is suggested that the applicant insert said step in the claims to accelerate prosecution of the application. Applicant is further reminded that the claims to be submitted should be underlined and appropriate Declaration (see MPEP 1444) forwarded to the Patent Office.

Patent 5,705,197 should be surrendered to the Office if applicant complies with the above suggestion.

The rejection set forth in the Office Action of 11/30/00 is deemed agreed to by the applicant in view of the remarks set forth in paper number 8, at page 1, bottom to page 2. Therefore, claims 11-27 are again rejected under 35 USC 103(a) for the

Art Unit: 1617

reasons set forth in paper number 8. The difference as stated above has not been clearly set forth in the claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.
